

Delight every caller

Phone.com AI-Connect

AI-Connect, is your Phone.com solution for seamless call routing and appointment scheduling, powered by cutting-edge artificial intelligence technology.

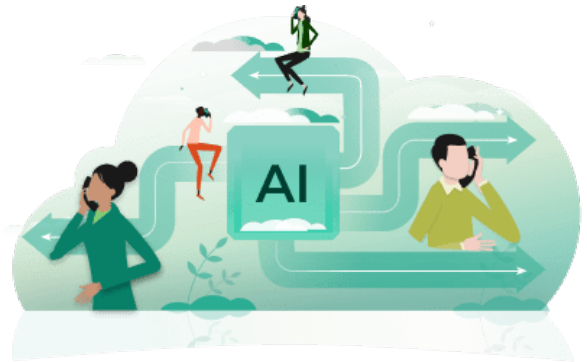

Whether you're a busy professional, a small business owner, or a large enterprise, AI-Connect is here to streamline your communication and scheduling processes effortlessly.

Add AI-Connect to your Phone.com service for just \$19.99 per month.

How does it work?

At Phone.com, we leverage the power of advanced AI algorithms to intelligently route incoming calls and/or schedule appointments according to your preferences.

AI-Connect analyzes incoming calls in real-time, understanding the needs of the caller through natural language processing (NLP). Based on predefined criteria set by you, AI-Connect intelligently routes the call to the appropriate department, individual, or voicemail.

24/7 Availability

100% of your business calls answered in seconds, 24/7. No holding, waiting, or busy signals.

Personalized Call Routing

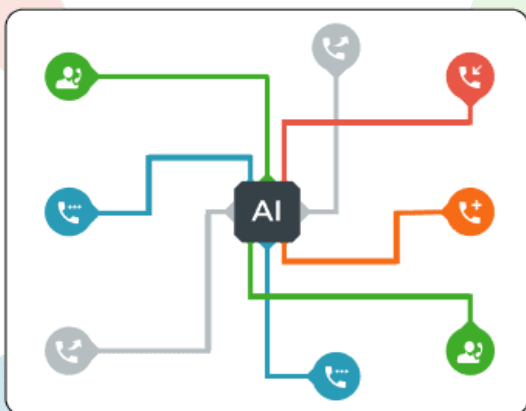

Customize call routing rules based on your unique requirements, ensuring that calls are directed to the right person or department every time.

Calendar Integration

Sync seamlessly with your Google or Outlook calendar, ensuring that appointments are scheduled without overlaps or conflicts.

Call Screening

Let AI-Connect announce each caller by name so you can take the calls you want and let others leave a voicemail or email message.

AI-Connect is Perfect For:

Frequently Asked Questions

How quickly is my AI-Connect service activated?

As soon as you configure your call handling rules and choose AI-Connect or AI-Connect and Schedule your service is ready to use. You can modify your greeting or call distribution rules at any time with changes taking effect immediately.
