

**Business communications
that's more than just talk.**

Phone.com
Communicate Better®

Live Receptionist Service

Never miss another call.

With Live Receptionist and Phone.com, your business can now have its very own live answering service, adding versatility, flexibility, and availability to your company no matter the size.

With our US-based live receptionists, a real person will answer your calls and then guide callers to wherever you choose, such as a voicemail box or a different extension.

Our Live Receptionists are online 24x7, including holidays. You get a professional full-time resource at a fraction of the cost of a permanent employee.

Every Phone.com and Live Receptionist account comes with your choice of business number. Pick a local or toll-free number and get more than 50 standard phone system features.

There's no setup fee, no contract, and you can cancel anytime!

With Live Receptionist you get:

- ✓ **Appointment Scheduling:** In addition to answering and directing calls, our receptionists can schedule meetings and appointments on your behalf, straight into your calendar.
- ✓ **White Glove Service:** Add a personal, professional touch to your business at affordable rates with a Live Receptionist skilled in the nuances of customer service.
- ✓ **A Break from SPAM calls:** Bothered by pesky robocalls or solicitors? No need to worry. Our attendants screen inbound calls and only forward those pertinent to your business.
- ✓ **Full Control:** You have full control over the call screening process, including how your callers are greeted and which calls are forwarded.

The Phone.com Experience

When you sign up for Phone.com and our Live Receptionist service, you'll enjoy a modern phone system built for today's mobile, agile, and always on businesses.

No more using a personal number for business.

Business phone numbers create a more professional impression and give you more control over customer relationships.

Enterprise features at a fraction of the cost.

Greetings, Automated Attendants, and Hold Music provides callers with a first-class experience, even if you are a one-person show.

No implementation headaches.

Start communicating immediately after choosing our inventory of over 20 million phone numbers. Use your mobile device, PC, or IP desk phone.
